

Wera 2go. The space-saving wonder for mobile applications

**Kranbahn-
Hauptschalter
Kran 77**

A small step for Wera tool sets.
A great step for mankind.

The textile boxes and pouches with
nonwoven sections are now provided with
a mobile home:

The Wera 2go tool transport system.

Wera 2go 1

The outside packer!

- **Wera 2go tool carrier with hook and loop fastener system**
- **For the docking of the Wera textile boxes and pouches with hook and loop fastener zones**
- **Individually configurable for greater mobility**
- **Hands remain free during transport**
- **Includes an adjustable, detachable shoulder strap with a wide padded section**

Wera 2go 2

The outside and inside packer!

- Wera 2go tool container with inner and outer hook and loop fastener zones
- Individually configurable for greater mobility
- Ideal also for the docking of Wera textile boxes and pouches equipped with hook and loop fastener zones
- Easy insertion and removal
- Hands remain free during transport

Wera 2go 3

The inside packer!

- Permanently dimensionally stable thanks to the fabric-lined plastic panels
- High resistance against cuts and stabs
- High protection of the tools transported against damage and moisture
- Can be individually equipped

Wera 2go 4 The Tool Quiver!

- Dimensionally stable Wera 2go tool quiver
- High resistance against cuts and stabs
- Variable hook and loop fastener partition for a division into as many as 5 inner sections
- Large set-down area; handle for carrying and hanging up

Wera 2go 1 Tool Carrier

The Wera 2go 1 is the super lightweight and mobile tool carrier for all Wera pouches and textile boxes equipped with hook and loop zone on their reverse sides. The pouches and boxes are easily and securely attached individually to the tool carrier.

The hands remain free during transport thanks to the shoulder strap that is included.

Wera 2go 1 Tool Carrier

1 tool carrier with hook and loop fastener system for the attachment of other Wera 2go components as well as Wera textile boxes and pouches with hook and loop fastener zones; 1 shoulder strap with adjustable-width padding, adjustable in length, detachable.

	Wera 2go 6	1 x 38x1470

Wera 2go 2 Tool Container

The Wera 2go tool container is the ideal solution for individual and convenient tool transport thanks to its hook and loop fastener system and its compactness. The inner and outer hook and loop fastener zones ensure a maximum in terms of space utilisation. This means that an incredible number of tools can fit in and on the container. Wera 2go 2 ensures a low weight since only the tools really needed for the job are taken along.

The robust and dimensionally stable material protects the tools carried against damage and moisture and enhances the service life of the tool container. The padded and width-adjustable shoulder strap and the snug fit of the container on the body mean that the container is easy and convenient to carry. The hands remain free during transport.

It comes with a quiver with an individually adjustable hook and loop fastener partition for screwdrivers and other tools.

Wera 2go 2 Tool Container

1 dimensionally stable, robust tool container with hook and loop fastener system for the attachment of other Wera 2go components as well as Wera textile boxes and pouches with hook and loop fastener zones; 1 handle and 1 shoulder strap with adjustable-width padding, adjustable in length, detachable; 1 removable quiver with handle and a variable hook and loop fastener partition for a division into as many as 5 inner sections.

Tip

Robust and dimensionally stable

The robust and dimensionally stable material is very resistant against cuts and stabs. The tools carried are protected against damage and moisture. This enhances the service life of the tool box.

Variable thanks to the hook and loop fastener system

The inner and outer hook and loop fastener sections mean that other Wera 2go system components can be just as easily attached as all other Wera tools in boxes and pouches with hook and loop fastener zones. This enables an individual composition of the tools needed for a specific job.

Practical carrying convenience

The shoulder strap enables the tools to be suspended over the shoulder and transported accordingly with the hands remaining free. The padding ensures great carrying comfort and convenience.

Perfect system supplement

Thanks to its hook and loop fastener zone, the quiver can be docked with the Wera 2go 1 tool carrier and with the Wera 2go 2 tool container.

At the workplace and when out and about

The large set-down area improves the stability of the quiver. Its large handle means that the quiver can be easily transported or simply hung up at the workplace.

Wera 2go 3 Tool Box

The compact Wera 2go tool box can be filled with tools and spare parts and can be docked with the Wera 2go 1, 2 and 5 articles.

Wera 2go 3 Tool Box

1 dimensionally stable and robust tool box, empty, equipped with handle for the storage and transport of tools and small parts; comes with hook and loop fastener zone for docking with the Wera 2go system.

What speaks for Wera 2go?

1. Packing becomes easier with Wera 2go.

Wera 2go is indeed a space-saving wonder. The modules seem small but an incredible number of diverse tools fit inside as well as outside. Tools not needed are simply removed. Any additional tools needed are quickly added on or inserted. Everything is clearly arranged and well sorted.

2. Travelling becomes easier with Wera 2go.

The individualisation options together with the material used ensure low weights and volumes during transport. The dimensionally stable outer material protects the tools against transport damage and moisture.

3. Walking around becomes easier with Wera 2go.

Thanks to the shoulder strap with extra wide and comfortable padding, the Wera 2go system can simply be hung over the shoulder – with the hands remaining free.

Which textile boxes can be docked with the Wera 2go system without the need for any additional aids?

Watch out for this symbol:

Wera packaging bearing this symbol contains tool pouches or textile boxes with nonwoven sections that can be docked with the Wera 2go system.

Would you like to attach your pouch with a nonwoven section to the wall or workshop trolley?

No problem! In such cases we also have self-adhesive hook and loop fastener strips available.
